Forecast For Northwest England
Issued by Met Office Exeter
at 1600 on Monday 22 Mar 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Rather cloudy with light patchy rain at times.

This Evening and Tonight:
Cloud will continue to thicken across the region during this evening and overnight, with the chance of some light rain or drizzle arriving at times from the west. A breeze will also develop during the early hours. Minimum temperature 4 deg C (39 deg F).

Tuesday:
A cloudy day for most with patchy light rain and drizzle in the north. Turning breezier throughout the day with rain becoming more extensive during the evening and overnight. Maximum temperature 12 deg C (54 deg F).

Outlook for Wednesday to Friday:
Largely dry but breezy on Wednesday. Blustery showers on Thursday with a risk of thunder and hail. Windy and colder on Friday with scattered showers, wintry over higher ground.
